

## Swingin' Vintage Pop

**LUNA & The Gents** are a virtual music project that combines retro charm with a fresh, modern sound. The project is the creative brainchild of songwriter and producer **Leendert van Stipriaan**, aka **STIP**, who, together with singer **Evelyne "LUNA" Péquignot**, is breathing new life into songs from his earlier repertoire. What once remained unfinished or unreleased has now become a vibrant project that celebrates authenticity, groove, and the timeless spirit of pop.

The result is a distinctive style they call **Swingin' Vintage Pop** – a blend of classic songwriting, catchy melodies and organic arrangements, shaped by real instruments and dynamic performances. Each track captures the warmth and spontaneity of live playing: no digital gimmicks, no sample overload, just genuine musicianship and emotional depth. Their songs sound like they're from decades past—yet still feel completely contemporary.

### **Retro in sound. Modern in style. Virtual in form.**

The lineup is an outstanding ensemble of musicians:

- **Evelyne Péquignot** – lead vocals and lyricist.
- **Matthias van Stipriaan** – guitars and musical direction, a graduate of the Musicians Institute Los Angeles and owner of a renowned music school.
- **Yves de Groot** – keyboards, also known for his work with *Nicole Bernegger* (winner of *The Voice of Switzerland*).
- **Rainer Schudel** – bass, a long-time player in various Swiss bands, including *Little Chevy*
- **Andy Lang** – drums, played with the *Lazy Poker Blues Band*, now part of *Little Chevy*.

Together, they create an atmosphere that is both nostalgic and refreshingly new. LUNA & The Gents invite you into a world where groove meets elegance and vintage meets the present.

***"We wanted to create songs that sound like yesterday – but feel like today."***
